PECB Certified ISO/IEC 27701 Foundation Course

Become acquainted with the best practices of

Privacy Information Management System (PIMS)

Trainer
Christodoulos
Papadopoulos

Certified Data Protection Officer

Certified ISO 27701 Senior Lead Implementer

Who should attend

- Individuals involved in information security and privacy management.

- Individuals seeking to gain knowledge on the main processes of a privacy information management system.

- Individuals interested in pursuing a career in privacy information management

- Individuals responsible for personally identifiable information (PII) within organizations.

- Information security team members

Language: English
Prerequisites: None

Why should you attend?

The ISO/IEC 27701 Foundation training course is designed to help participants understand the basic concepts and principles of a Privacy Information Management System (PIMS) based on ISO /IEC 27701. Moreover, during this training course, participants will learn more on the structure of the standard including its requirements, guidance and controls on the protection of the privacy of Personally Identifiable Information (PII) principals and the relationship of the standard with ISO/IEC 27001 and ISO/IEC 27002.

After completing this training course, participants will be able to take the exam and, if successfully pass it, they will be able to apply for the "PECB Certified ISO/IEC 27701 Foundation" credential. A PECB Foundation certificate proves that you have comprehended the fundamental methodologies, requirements, guidelines, framework and managerial approach.

Learning objectives

♦ Understand the fundamental concepts and principles of a privacy information management system (PIMS) based on ISO /IEC 27701

♦ Identify the relationship between ISO/IEC 27701, ISO/IEC 27001, ISO/IEC 27002 and other standards and regulatory frameworks.

♦ Understand the approaches, standards, methods and techniques used for the implementation and management of a PIMS

Examination: The "PECB Certified ISO/IEC 27701 Foundation" exam complies with the PECB Examination and Certification Program (ECP) requirements. The exam covers the following competency domains:

Domain 1: Fundamental principles and concepts of a privacy information management system (PIMS)

Domain 2: Privacy Information management system (PIMS)

Standard ISO/IEC 27701:2019 - Security techniques — Extension to ISO/IEC 27001 and ISO/IEC 27002 for privacy information management — Requirements and guideline:
