## Penetration Tester - Leading IT Company - IT - Limassol - Cyprus

Would you like to work at the cutting edge of technology on sophisticated, niche security products working for an international company's newly established office in Limassol, Cyprus? Our client is seeking to hire a dynamic Penetration tester to operate at the highest levels within their field. This is an excellent opportunity to join a high growth organisation and excel your career in technology.

### MAIN REQUIREMENTS:

- BSc/MSc in Computer Science or any other related field
- At least 2 years of working experience in IT Security, preferably with exposure to application security testing (source code review and application penetration tests)
- Working knowledge of Security principles, techniques and technologies
- Good understanding of network protocols, design and operations
- Vulnerability and threat management experience
- Experience with various security tools and products
- Good understanding of the components of a secure DLC/SDLC
- Understanding of cryptography principles
- Creative problem solving skills
- Independent and self-motivated
- Adaptive and communicative
- Excellent written and verbal skills in English

Due to the high volume of applications we receive, only shortlisted candidates will be responded to.

If you are interested in the above position please send your CV to **Annita Paliou** at the following email address [annita@grsrecruitment.com](mailto:annita@grsrecruitment.com) or contact me by phone +357 25 342 720 quoting the above reference number.
