ROBOVET: VET PROGRAMME IN ROBOTICS TECHNICIAN

RoboVET

VET Programme in
Robotics Technician

Overview

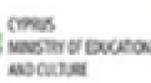

The project entitled RoboVET: Definition and Implementation of a VET Programme in Robotics Technician was launched on 1st October 2018 and will be concluded on 30th January 2021. The project aimed to create a new VET graduation that will highly promote the employment and will foster the local economic development by providing qualified Robotics technicians to the labour market. The partnership represents Portugal, Spain and Cyprus.

Direct target groups are at first level the VET trainees and trainers, VET providers public regulatory bodies of VET. At second level, the enterprises, especially the SMEs which face the challenge of the modernization or which have difficulties in recruiting highly-skilled workers.

Why attend?

- **Learn about the project's results**
- **Find out more about the design of a new VET joint qualification in Robotics**
- **Engage in a lively discussion about the development of a highly skilled, qualified and mobile workforce from which companies would also benefit**
