QA Engineer, Limassol, Cyprus - Limassol

Ref: 218 **Date Posted:** Monday 14 Mar 2022

Are you a QA engineer seeking an ambitious challenge? Join a global European based successful and profitable analytics company that works with governmental organizations and with R&D sites across Europe, including Limassol, Cyprus where the Delivery/Operations are situated. Join our client and be part of a team working together to achieve very ambitious goals.

Responsibilities:

- Utilize innovative testing technologies to develop product's testing strategy.
- Analyze test logs, debug failures and create test reports.
- Perform manual testing.

Requirements:

- B.S. in Computer Science, Engineering, or equivalent experience
- 2+ year of experience working as a Quality Assurance Engineer.
- Strong knowledge of QA methodology and tools.
- Experience in manual testing.
- Experience in REST API and Mobile testing.
- Experience in Any Scripting and Programming language.
- Understanding of basic networking protocols and concepts such as DNS, DHCP, HTTP, SSL, TCP/IP, UDP.
- Knowledge of the UNIX/Linux operating system.
- Strong Communication Skills.
