

Senior Unity Developer, Limassol

Ref: 210

Our client in the innovative tech sector is looking for a skilled Unity Developer, who together with the team of seasoned professionals, will drive forward new and existing flagship projects played by millions every day.

Responsibilities:

- Development of mobile puzzle games.

Requirements:

- At least 3 years of experience with Unity;
- Expert knowledge of Unity engine components;
- Expert knowledge of C# programming language;
- Good experience in-game optimization techniques;
- Experience in building effective game systems;
- Good knowledge of algorithms;
- Proven track record of delivering mobile projects.

It will be a plus:

- Experience in developing native components for Android and iOS;
- Knowledge of client-server communication principles and protocols;
- Experience in creating rich user interfaces using Unity GUI.

Benefits:

Besides the engaging tasks, support from experienced colleagues, the opportunity to realise your own ideas, challenges, and drive, we offer:

- High income with performance bonuses;
- Best office in Limassol (The Oval), modern equipment (remote work during COVID-19);
- Snacks and drinks, gym in the office building, sea view, beach bar 100 metres from the workplace;
- Attendance of key industry events;
- Medical insurance;
- Sports reimbursement;
- English lessons;
- Relocation package to the country with 300 sunny days a year;
- Fast-paced and easy-going environment.
