

EY People Advisory Services (PAS), on behalf of our client, a leading banking institution in Cyprus, is currently seeking to recruit a:

### **Network Security Officer, Nicosia**

The ideal candidate will join the IT department of the company. You will be working as part of a team within a dynamic, challenging and creative environment in order to achieve team-oriented goals.

#### **Role & Key Responsibilities:**

- Assist in establishing clearly defined and documented scope, objectives, approach, plans and resource requirements
- Deploy, testing and maintain security systems such as VPNs, firewalls and email security
- Plan and design policies and procedures which safeguard the integrity of and access to systems and electronic information, to guard information against accidental or unauthorized modification or disclosure
- Work with external suppliers to source hardware and software solutions to network security issues
- Responsible for the installation, configuration and management of IT equipment and software (antivirus, MS Office, backup software etc.)
- Analyse and understand technical specifications of services and products
- Provide diagnostic and troubleshooting solutions to the institution
- Perform network vulnerability assessments
- Participate in review and analysis of security products and services and make recommendations based on the needs of the institution
- Ensure that current network system security is suitable for future requirements
- Conduct periodic assessments and regular monitoring of the systems
- Make recommendations for improving controls and practices to reduce risks related to information security

#### **Requirements, Skills and Attribute:**

- University degree in Computer Science or Software Engineering or in a similar field
- Familiarity with DHCP, DNS, WSUS, MS Exchange, PowerShell
- Great knowledge in Secure Software Development
- Good understanding of routing and switching technologies, IP protocols
- Experience with security frameworks
- Experience with Linux, VMware, Firewalls, SAN/NAS Solutions, URL/Application Filtering
- Ability to read and interpret business reports and graphics
- Proficiency in relational databases and data modelling
- Excellent verbal and written skills in both English and Greek
- Strong communication skills
- Excellent interpersonal and teamwork skills

#### **Benefits:**

- A competitive remuneration and benefits package will be offered according to skills and experience.

#### **Applications:**

- Applicants should forward a detailed CV to [clientjobs@cy.ey.com](mailto:clientjobs@cy.ey.com) by **22/05/2022**
- Applicants should enter in the subject of their email, the title of the position they are applying for

- Job applications are thoroughly screened, and only successful candidates will be contacted
- Please note that all applications will be treated in strict confidence, ensuring GDPR compliance
