

EY People Advisory Services (PAS), on behalf of our client, a leading banking institution in Cyprus, is currently seeking to recruit a:

Software Developer, Nicosia

The ideal candidate will join the IT department of the company. You will be working as part of a team within a dynamic, challenging and creative environment in order to achieve team-oriented goals.

Role & Key Responsibilities:

- Contribute in the software optimization - documentation, maintenance and updates
- Design and implement new features for existing products as per business needs
- Participate in the performance of diagnostic tests and debugging
- Write and implement efficient code
- Identify areas for modification in existing programs and subsequently develop these modifications
- Utilize knowledge and creativity for innovative product development and solutions.
- Perform analysis to determine needs and establishing parameters of new software.
- Design the architecture, test and develop software for new systems.
- Monitor quality and performance of software through testing and maintenance to ensure efficiency.
- Ensure that a program continues to function normally through software maintenance and testing.
- Document every aspect of an application or system as a reference for future maintenance and upgrades.

Requirements, Skills and Attribute:

- University degree in Computer Science or Software Engineering or in a similar field
- Experience in software development of business applications using Java (TCP/IP Sockets, JDBC, JSP, Servlets)
- Great understanding of data structures, algorithms and functional programming
- Experience in Web services and standards (JSON, XML, REST, SOAP)
- Excellent knowledge of HTML5, CSS3 and JavaScript
- A good knowledge of jQuery, Node.js will be considered as an advantage
- Familiarity with using Oracle & SQL Databases
- Ability to read and interpret business reports and graphics
- Proficiency in relational databases and data modelling
- Excellent verbal and written skills in both English and Greek
- Strong communication skills
- Excellent interpersonal and teamwork skills

Benefits:

- A competitive remuneration and benefits package will be offered according to skills and experience.
