Junior Data Analyst – Cyprus

Reference Number: JDA1022

The Role:

This is a great career opportunity to join a team of experts in an innovative and fast-growing company. The main focus will be on performing analysis and delivering high quality reporting in existing and new business operations.

The main responsibilities of the position include:

- Work closely and assist the Investment Management function with data analysis, reporting and database maintenance
- Design, implement and maintain adequate reporting to monitor the company's operations and performance
- Perform data analysis for the identification of business development opportunities and cost efficiencies
- Reconcile and evaluate data from multiple sources and resolve any discrepancies and issues identified
- Monitor and troubleshoot trading system availability
- Analyse, maintain and monitor financial instruments liquidity, availability and cost

Main requirements:

- BSc/MSc in Mathematics, Statistics, Finance, or any other relevant field
- Knowledge of relational database concepts, SQL, and Microsoft Excel
- Knowledge of scripting languages such as R, Python or MATLAB
- Previous experience is considered a plus
- Strong analytical and problem-solving skills with high attention to detail
- Excellent verbal and written communication in Greek and English

Benefit from:

- Attractive remuneration package plus performance related reward
- Private health insurance
- Corporate pension fund
- Intellectually stimulating work environment
- Continuous personal development and international training opportunities

Type of employment: Full time

Location: Limassol, Cyprus
