

Senior Full Stack Software Developer

Join our experienced team of Software Developers implementing mission critical IT solutions for large size organizations in various sectors, including law enforcement & justice, asylum & migration, social security, lands and town planning, financial services, insurance in Cyprus and abroad.

Responsibilities

You will have the opportunity to expand your knowledge in software development by participating in large scale implementation projects with an assigned tech team. As a senior member of the team, you will coach and guide junior Software Developers and lead projects.

Qualifications

- University or College graduate in an Information Technology related field
- At least 5 years working experience as a Software Developer, preferably in Java, using either NetBeans or IntelliJ
- Web application development knowledge including but not limited to React, or Angular, HTML, JavaScript, CSS
- Knowledge of database systems, such as Oracle, MySQL or MSSQL
- Use of version control systems
- Experience within a tech leading role will be considered an advantage
- Excellent knowledge of the English language

Skills & Competencies

- Strong leadership skills
- Strong communication and interpersonal skills
- Attention to detail
- Ability to understand and transform business requirements into software
- Ability to work independently and as a member of a project team
- Ability to consistently meet project deadlines

Benefits

A competitive remuneration package including provident fund, life insurance, and medical fund will be offered to the successful candidate.

About NetU

NetU is a leading IT solutions and services organization in the Eastern Mediterranean region with offices in Cyprus and Greece. Since its founding in 1991, has been consistently selected by medium and large organizations to be their IT business partner, to help them achieve their corporate objectives and obtain a competitive advantage. By identifying ways to seamlessly integrate business processes and technology, NetU empowers its customers to reap the benefits of IT; whether investing for the first time, upgrading or optimizing existing systems. Cultivating co-operative rather than exclusive relationships with market leaders enables us to recommend and deliver the most solution, yielding the highest return. Today is recognized as a major Integrator in the region and has developed strong local and international activity. As such, it should come as no surprise that our customers include the largest and most successful organizations in the region.
