

Job Title: iOS Developer, Jinius

Type of Employment: Permanent

Location: Nicosia (Hybrid)

We are currently seeking to recruit an **iOS Developer** to join our dynamic team at Jinius, a subsidiary of the Bank of Cyprus. If you are passionate about technology and finding creative solutions, then this opportunity might be for you!

Our current tech stack includes:

- React for our web interface
- .NET 8 using C# and Java Spring Boot for our backend
- Microservice, event-driven architecture
- PostgreSQL using Event Sourcing
- gRPC calls for inter-service communication
- Kafka message bus
- Azure cloud
- Native iOS app
- Native Android app (coming soon)

DEADLINE: 03/07/2025

HOW TO APPLY:

- **Sign in** or **Create an account** in our '[e-recruitment System](#)' and complete your profile
- From the 'Candidate Profile' section, click on the following:
 - BoC Logo or link
 - Job Search
 - Search Jobs > Site Reliability Engineer
 - Click on > Site Reliability Engineer
 - Apply
 - Make sure you hit on Apply button again.

KEY ACCOUNTABILITIES

- Develop an iOS app for our B2C marketplace offering.
- You will work in 2-week sprints and in conjunction with product, delivery, architecture, design, and data teams.
- Technical skills are important but we're treading start-up territory which means unknowns are a part of life, so a team player with a positive attitude looking for a challenge is the perfect fit!

**ACADEMIC / PROFESSIONAL QUALIFICATIONS**

- Bachelor's degree in computer science, Information Technology, Electrical and Computer engineering, or other related subject
- Master's degree in any of the above subjects will be considered as an advantage

PROFESSIONAL EXPERIENCE / SKILLS

- **2+ years** of relevant professional experience in iOS development.
- **Proficiency in Swift** and strong knowledge of the iOS SDK.
- Experience with **SwiftUI** for modern UI building.
- Experience implementing applications from Figma, XD, or other design tools, ensuring pixel-perfect UIs.
- Strong understanding of **MVVM architecture** and design patterns.
- Solid knowledge of RESTful APIs and integration with backend services.
- Experience with version control tools like **Git**
- Bonus points:
 - Previous experience working on e-commerce apps.
 - Published apps on the Apple App Store.
 - Experience with CI/CD pipelines.
- Very good interpersonal skills.
- Ability to take initiatives and make decisions.
- Problem-Solving Skills.
- Ability to work well within a team.
- Excellent written and verbal communication in both Greek & English.

BENEFITS

- Competitive salary
- Private health care
- Pension fund
- Hybrid working model
- Work with latest technologies
- Agile work environment
- Bi-weekly sprint reviews with snacks
- Unlimited freshly brewed coffee

ADDITIONAL NOTES

- Candidates who have already created a profile in our recruitment platform and are interested in the specific position, need to apply for the position provided that they meet the criteria set.
- Only shortlisted candidates will be contacted.
- All applications will be treated with strict confidentiality.
